THE TRIAL OF COXEY.

The Commonweal Army Leader Before a Court of Justice.

LOOKS BAD FOR KELLY'S BAND.

It Is Now Believed That the California Industrials Will be Starved Out of Des Moines and Compelled to Continue Their Journey on Foot.

WASHINGTON, May 5.—Another opportunity was afforded the Commonweal leaders to exploit themselves before the public yesterday in the police court proceedings against the leaders. Marshal Carl Browne took advantage of the occasion to swagger about in his buckskin apparel and once put in a word of comment regarding the proceedings. Judge Miller threatened to have the marshal consigned to the dock. There was an audience gathered which filled the court room and included most of the Populist leaders, as well as other members of congress. Senator Allen, while display ing sympathy with what he called the visionary ideas of Coxey, made a strong plea for the constitutional rights of citizens to peaceably assemble and petition congress.

Judge Miller refused a separate trial for Coxey, so the three defendants are in one boat. They were represented by three attorneys—Representative Lafe Pence of Colorado, ex-Assistant Interior Attorney A. A. Lipscomb of Washington, and a young and inexperienced lawyer named Hyman. The proceedings were pervaded with good nature and informality. Once Representative Van Voorhis, of New York, interjected a speech, although he had no particular connection with the case and it was difficult to tell who were the actual participants.

The first witness for the government was Detective Horan of Washington, who had traveled with the army for several days as an enlisted "Weaver." He told how Coxey enlisted him to commune A, as No 15. Under cross examination by Representative Pence, the detective detailed his orders, said that none of the men were armed, and that he had never heard Coxey or his men threaten any resort to violence. He had represented on joining that he was an unemployed laboring man. Some of the men had got drunk, but he had heard General Coxey say that he would discipline any man caught drunk or begging.

Major Moore testified regarding Coxey's threat to speak from the Capitol steps after he had been notified that such action was unlawful, and other witnesses told of the incidents leading to the arrests. The case is continued today.

BAD FOR KELLY'S ARMY.

Belief That the Men Will be Starved Out of Des Moines.

DES MOINES, Ia., May 5.—The effect of the discouraging outlook for Kelly's industrials has made itself manifest in the army and the men are downcast and disheartened. There were no songs over their camp fires, no shouting of "On to Washington," and no cheers for officers and visitors. The prime cause of the general depression was the continued scarcity of provisions. When breakfast time came the commissary officer reported 1,000 loaves of bread on hand, but scarcely enough meat and coffee to supply the officers' mess. Kelly murmured a few mental oaths and then drew on his far famed treasury for money to buy coffee and meat. The arrival of the purchased provender served partially to dispel the gloom, but the uncertainty as to dinner prevented a pronounced pall movement in the spirits of the "troops."

Governor Jackson again spent the day in endeavoring to secure cheap rates to the river, but without success. To carry the men to the Mississippi at full fare would cost about $6,000, an amount far beyond the loudest hopes of the soliciting committee and the railroads entering Des Moines have positively stated that nothing less than full fare would be accepted. The route to the river via the Des Moines & Kansas City narrow gauge and the Keokuk and Western is the only one now left to be considered, and should pass be denied a peaceful march across the country, movement must follow. It is the active, aggressive here that he is to be ejected out and forced to march, and that the army will dwindle to a corporal's guard before the river is reached.

A Commonweal Camp Broken Up.

ELIZABETH, N. J., May 5.—A large corps of policemen made a raid on a crowd of tramps encamped in the woods south of North Elizabeth. They were waiting for the coming of the Connecticut detachment of Coxey's army and had built cabins of railroad ties stolen from the Pennsylvania tracks. The camp was demolished and the men driven across the Union county line. For the last two weeks more than 1,500 chickens have been stolen from coops within two miles of the camp.

A Premium for Avoiding Valparaiso.

VALPARAISO, Ind., May 5.—The committee of citizens sent to meet Randall's army returned last evening. Randall will pass around the city and the committee on return will furnish enough provision to last him over Sunday. The state board of health will visit the camp for the purpose of vaccinating every member of the army as it had just marched through a district infected with smallpox.

New Englanders Off for Baltimore.

NEW YORK, May 5.—The New England contingent of Coxey's army from Boston met last night in Grand Central depot. The railroad companies interested in the movement of the army say they will charge for Baltimore the same rate by way of Jersey City.

Frye Still on the Tramp.

INDIANAPOLIS, Ind., May 5.—General Frye announces his army will start on foot tomorrow for Dayton or Cincinnati. All boat transportation has been abandoned. The provisions in the camp are very low.

A NEW CONEY ISLAND.

The Famous Seaside Resort Annexed to the City of Brooklyn.

NEW YORK, May 5.—The annexation of the town of Gravesend to the city of Brooklyn, which went into effect yesterday, is of national importance, inasmuch as it brings under municipal government the famous seaside resort, Coney Island, which was the stronghold of the kingdom of John Y. McKane, who is now serving a term in state's prison for crimes committed against the franchises at the November election. Coney Island proper contains Manhattan Beach, with its two mammoth hotels, Brighton Beach and West Brighton, the latter being the popular section of the island, and containing numerous small hotels, lower saloons without number, variety shows, concert halls, and the thousand and one attractions which go to make up people's holiday place.

It contains also a street known as the Bowery, which is largely composed of dives. Here one, in some places, runs riot unhampered by law. Sunday is the great day in the week there, the saloons being in full blast, and the dance halls holding open-air. Everything went during the McKane regime except injunctions. Now that the city authorities control Coney Island it is expected that all this will be changed. The Brooklyn police department will superintend the charge of the town, and will blot out the dives, regulate the dance halls and endeavor to drive out the thieves, who prey upon the visitors.

It is not expected that the Sunday laws will be enforced with the same rigidity that prevails within the present city limits, but on Sunday the music halls will be closed and the saloons will not be permitted to flaunt themselves in the faces of the multitudes. The Bowery will undoubtedly be blotted out. The cost of liquor licenses will be raised from $200 to $100, and it is safe to say that one-half of the present saloons will not have their licenses renewed.

SPREAD OF THE COAL STRIKE

More Miners Going Out and a Fuel Famine Approaching.

ST. MARY'S, Pa., May 5.—A meeting of the miners working at the Cascade and Hazel Dell mines, operated by Kaul & Mall, was held at the works. Resolutions were unanimously adopted expressing sympathy with the striking miners of the bituminous coal fields of the state, but declaring it a matter of duty to their employers to continue at work.

PEORIA, Ills., May 5.—Eight hundred coal miners, headed by a brass band and drum corps, marched to two mines in Tazewell county to force the operatives to quit work. They visited the Cellner mine, which has been running since the strike began. Here the miners refused to quit, but when the strikers got demonstrative agreed to suspend until further notice.

BIRMINGHAM, Ala., May 5.—The coal miners' strike seems to be no nearer an end than when it began. The coal supply of this district is gradually diminishing. Owing to the scarcity of coal Troy, Ala., has been without lights for three weeks.

HARTSHORNE, I. T., May 5.—The coal strike has not materialized among the miners located here and elsewhere on the line of the Choctaw Coal and Railway company. The miners unanimously voted to continue at work.

PEORIA, Ills., May 5.—The City Electric Railway company was compelled to shut down today, owing to the miners' strike, there being no coal. Not a car was moving.

MONTALY, Mo., May 5.—The crusaders from the mining town of Beaver and other points in that district have succeeded in inducing all the miners at work in the Ardmore district to lay down their tools.

Miners Want to Lynch a Marshal.

DULUTH, Minn., May 5.—Marshal Al Free raided to suppress a slight disturbance among some striking miners at Mountain Iron last evening, when Mat Matson threatened him with a revolver. Free promptly shot him twice in the abdomen and he will probably die. Word of the affair was sent to the strikers at Virginia and a mob of 100 started for Mountain Iron with the avowed intention of hanging Free. Sheriff Shoney ordered he mission out, and they took charge of Free and removed him from the town. No word can arrive but from Mountain Iron and it is believed the wires have been cut.

Story of a Rock Fall.

LAKE CITY, Col., May 5.—One of the largest and richest mineral bodies ever found in the Lake district was uncovered in the Golden Fleece mine, eight feet of pure silver that is said to contain ten tons. Fifteen tons of ore have been taken out and sent to the smelter, which has been worked to its full capacity with a force of 30 men for the past month.

THE INJUNCTION VOID

Judge Jenkins Had No Right to Prohibit Railroad Men From Striking.

WASHINGTON, May 5.—The sub-committee of the house committee on judiciary, which was appointed to investigate the circumstances attending the issue of an injunction enjoining the Northern Pacific employes from striking, and to inquire as to whether Judge Jenkins, who issued the injunction had extended his judicial power and used his office to intimidate the employes of the railroad company, made their report to the full committee.

The sub-committee find that the object and purpose of both writs of injunction was to prevent the employes of the Northern Pacific railway from striking—that is, from withdrawing from the service in a body—which the court was informed by the officers of the road would result in a suspension of its operations, inflict great damage to the property and inconvenience to the general public. The order, which practically compelled the employes to accept a lower rate of wages, and which prevented the officers of the labor organizations from the discharge of one of the most important functions in their possession, is, in the opinion of the committee, a gross abuse of judicial authority, without the warrant of law, and void.

The committee is also of the opinion that the men had a perfect right to withdraw from the service of the company, singly or in a body if they saw fit to do so, that they had a lawful right to combine to obtain the best terms of employment and any order of the court which practically deprived them of that right is a violation of their personal liberty. The injurious effect of an exercise by them of a lawful right on the interests of the corporation and the public could not justly be taken into consideration by the court.

The committee finds no sufficient evidence to sustain any charges against the judge, as he may have conscientiously believed that he had the power to issue the writs complained of. The committee recommends that to set at rest any doubt on the subject a prohibitory statute be enacted which will prevent the recurrence of such orders. It also recommends the enactment of a statute defining and limiting the powers of United States judges in proceedings for contempt.

A Leading Citizen's Suicide.

INDIANA, Pa., May 5.—The community was shocked by the announcement that William B. Marshall, the senior member of the big mercantile firm of Marshall & Kline had committed suicide by shooting himself. He was about 65 years of age, and was one of Indiana's leading citizens and prominent men. He had been a trustee of the Indiana State Normal school from its beginning, prominent in business and social circles, a member of the Masonic fraternity and supposed to be worth from $75,000 to $100,000. It was developed that he had some financial embarrassment, but none of a serious nature.

Saved From a Living Tomb.

HAZLETON, Pa., May 5.—Theobald Wackley, the miner who was entombed Thursday in Highland mine, was rescued alive yesterday. Wackley was partly overwhelmed by a mass of falling coal, and, although he extricated his body, he was pinned down in a kneeling position until rescued. Ever since Thursday night he heard the voices of the rescuing party through a wall of rock six feet thick. This had to be tunnelled through, as the other passage was filled with debris and would have caved in again. Wackley, in spite of his helpless condition, cheered the rescuers in their work.

A Suicidal Epidemic.

PHILADELPHIA, May 5.—Five people attempted suicide yesterday and two succeeded. A 12-year-old girl was seen hanging to the lower of pier 35. A passing seaman accosted her, but she answered him defiantly and dropped into the water and was drowned. Morton Fahler, 75 years old, drowned himself in the Delaware. William J. McCarthy threw himself in front of an express train, and was seriously injured. An unknown man took paris green, but his life was saved. Mary Bevany threw herself from a window and was seriously hurt.

Eight Tourists Imprisoned.

GREAT FALLS, May 5.—The party of eight tourists who were imprisoned while exploring a stalactite cavern at Sheepeaters have not yet been rescued. A scout who made two daring attempts to reach them was prostrated with a sunstroke on each trip. The journey through the tourist-haunted is now blocked with boulders and debris. There seems to be no doubt that some of the party are still alive, as tapping with a hammer have recently been heard coming from the heart of the cavern.

THE TARIFF ENIGMA.

Both Republicans and Democrats Claim the Winning Hand.

THE ATTITUDE OF SENATOR MILLS.

The Texas Statesman, Though Not Present at the Democratic Caucus, Will Abide by the Decision of His Party Colleagues, Though Not Entirely Satisfied.

WASHINGTON, May 5.—Notwithstanding the truce agreed upon between the Democratic and Republican senators, whereby it was arranged that hostilities on the tariff should cease until next Tuesday, there has not been a day when there has been bolder talk and stronger protestations on the respective sides of the chamber than yesterday. While the Republican senators have allowed the Democrats to infer that when the amendments are publicly announced and the assurance of a vote sufficient to pass the bill is given they will yield to the majority they assert privately that they know that the necessary votes cannot be obtained and declare that the Democrats in the senate are gradually approaching more serious trouble than they have yet encountered, and in making this statement they assert that Senators Murphy and Smith are as doubtful as to whether they will support the conference bill as it is to be expected. It is asserted that senator Smith only cast his vote for the German resolution in the Democratic caucus upon the assurance that the resolution was not binding.

The Democrats express the greatest confidence in the success of the bill. Senator Faulkner said that the bill would become a law before the 15th of June, and that congress would adjourn before the Fourth of July. Other Democratic senators declared the tariff bill would pass the senate before June 1. More than one asserted that both Senators Murphy and Smith had given assurance of support. It is noticeable, however, that some of the Democratic senators are canvassing the probabilities of securing the Populist vote in the senate, and they say that Senators Allen and Kyle will vote for the bill, so that they can lose Hill, Murphy and Smith if necessary, and still have the requisite forty-three votes.

The program of the Democratic managers is to introduce the tariff amendments on Monday. Love them taken up in the full committee on Senator on Tuesday, and reported to the senate so as to consume the debate after that date. In the meantime they will proceed with their work of clearing up the executive calendar while in the committee rooms they will arrange for the renewal of the battle, which they will try to carry by a cavalry charge if the Republicans do not make definite terms with them.

Senator Mills, who was not at Thursday's caucus, was asked if his absence had any significance, and emphatically said that it had none. "I did not know anything about it," he said, and if I had been there I would probably have talked against concession and then taken my medicine like the rest of them and agreed to vote for the bill. I realize that we are in the hands of a half dozen senators who can defeat the bill if they do not get what they want. Since the bill was first made concessions have been going on and instead of cutting down as I desired should be done they have been going up, and we cannot tell where they will end."

He was asked why they did not arrange the differences in some way and get down to work.

"That is what they are trying to do. They hope that this matter can be arranged after awhile and the discussion of the bill proceed. The country is impatient of delay. They were when the silver bill was pending. A great many did not believe the repeal would do any good, but they wanted the matter settled. I know something about public opinion, and I know that the people regard this delay as unnecessary, and are becoming very much disgusted."

Speaking of the work of the finance committee, Senator Mills made a rather significant statement regarding his connection with it. He said he had no wish to serve and served temporarily because other members were sick. He declared he would not serve permanently upon the committee. Senator Mills has been regarded as the person who would succeed the late Senator Evarts, but his words indicate that he will not.

It May Be As Much for You.

Mr. Fred Miller, of Irving, Ill. writes that he had a severe Kidney trouble for many years, with severe pains in his back and also that his bladder was affected. He tried many so called kidney cures but without any good result. About a year ago he began use of Electric Bitters and found relief at once. Electric Bitters is especially adapted to the cure of all Kidney and liver troubles and often gives almost instant relief. One trial will prove our statement. Price only 50c. for large bottle at McMonagle & Rogers Drug store.

What Will Be It?

Medical writers claim that the successful remedy for nasal catarrh must be non-irritating, easy of application, and one that will reach the remote cores and ulcerated surfaces.

The history of the efforts to treat catarrh is proof positive that only one remedy has completely met these conditions, and that is Ely's Cream Balm. This safe and pleasant remedy has mastered catarrh as nothing else has ever done, and both physicians and patients freely concede this fact. Our druggists keep it.

FINANCE AND TRADE.

A Cheering Report Despite the Many Strikes and Industrial Armies.

NEW YORK, May 5.—R. G. Dun & Co.'s weekly review of trade says: It is now, as it has been for nearly a year, the amazement of intelligent observers that the United States suffers so little from reverses which other lands share, but which fall more heavily here than anywhere else. Notwithstanding the stirring events of the past week the volume of business is but 13 per cent less than a year ago. In other directions signs of improvement appear even now, and the sublime faith of the people in their future is shown in the general belief that strikes and disorders will quickly disappear.

Money markets have not been disturbed by the large outgo of gold, which was taken mainly from the treasury through redemption of notes.

The most encouraging sign is the marked decrease in liabilities of firms failing, which were only $4,448,144 for the last week of April and for four weeks $6,228,288, of which $5,522,220 were of manufacturing and $4,941,857 of trading concerns. The amount of liabilities in the south was $2,919,419 against $5,313,023 in western and $6,252,257 in western states.

The failures this week have been 238 in the United States, against 216 last year, and 35 in Canada, against 27 last year.

The Armor Plate Frauds.

WASHINGTON, May 5.—Captain Sampson, Professor Alger and Lieutenant Ackerman, a board appointed by Secretary Herbert, are examining at length evidence submitted by Attorney Wallace, of McKeesport, to support the allegations of McLuckie and other ex-Homestead workingmen that there have been extensive frauds in connection with the fabrication of naval armor plates, in addition to those already discovered by Secretary Herbert. The board is considering its inquiries privately and the present purpose is to ascertain whether Mr. Wallace's charges relate to armor plates upon which penalties have not been levied already by the department.

A Point for Women Plaintiffs.

ALBANY, May 5.—Governor Flower has signed the bill allowing women in actions brought for damages for injuries to be examined by physicians of their own sex. The making of this bill a law is somewhat singular, in view of the fact that the court of appeals on Tuesday last decided on the appeal of Miss Agnes Lyon, of New York, that she need not submit to a physical examination. Miss Lyon, who is 19 years old, was injured in a collision on one of the New York elevated roads, and brought an action to recover $50,000 damages.

The Mail Agent Arrested.

WILMINGTON, Del., May 5.—H. C. Long, mail agent on the Delaware, Maryland and Virginia railroad, was arrested at Harrington, charged with complicity in the robbery of $6,000 last Monday from the safe of the Adams Express company on a train near Harrington. He was lodged in jail at Dover. It is said that the express company and the government mail service have been systematically robbed near Harrington for some time past, and about $10,000 taken.

WOMEN LED TO BATTLE

Murderous Attack on Coke Workers at Scottdale, Pa.

CHILDREN JOINED IN THE RAID.

A Deputy Sheriff and a Mine Official Were Seriously Wounded, While Five Men and Two Women of the Assaulting Party Are Shot Down.

SCOTTDALE, Pa., May 5.—The north end of the Connellsville coke region is in a fever of fear, excitement and anxiety. The terrible work at the Painter plant of the McClure company, and as it was in itself, is feared still more as a foreboding of the beginning of times and conditions that are inevitable unless the strike is speedily settled.

Yesterday's battle was between striking Poles, a small number of deputies and a comparative few of the men at work at the Painter plant. Deputy Sheriff White and Chief Clerk Roddy were terribly beaten and are lying in a critical condition. Five men and two women on the strikers' side were shot and two of the men dangerously wounded. Sixty-three rioters, among them twelve women and ten children, have been taken to jail, and warrants for fifty others have been sworn out, but two more cannot now be found.

The Painter plant was closed down by the strikers on the 24th ult., and was idle until Wednesday of this week. Yesterday Joe Sosonsky's wife went to the other houses and got the women of the striking Poles to join her in a proposed raid on the plant. Soon she had 150 men, women and children in the ranks, ready for a raid. The men remained in the rear and the women and children, led by Mrs. Sosonsky, made a rush for the coke yards.

This region has seen many savage affairs in which women unsexed themselves by deeds of cruel violence, but the old timers say that never before has there been such a spectacle as this. Every person in the assaulting party had some sort of striking weapon, even the children screaming shrilly as they flourished sticks suited to their size. Many of the women bore axes and some of them carried baseball bats and hatchets.

Deputy White was the first man at the yard on whom a blow fell. Mrs. Sosonsky had a baseball club and her husband wielded an ax. White went down before the front rank of the rioters. Roddy and a clerk named James Tarr saw him fall. In the face of the fearful odds these two men sprang to his rescue and fought their way to his side. Then the frantic rabble fell upon Tarr and Roddy as White struggled to his feet, blinded with blood. The three men fought desperately, but the odds were too great, and finally all were again under the feet of the mob. Roddy was beaten and cut almost as badly as White.

White was dragged into the engine house to escape the fury of the strikers. By this time the deputies rallied, and three volleys were fired in quick succession, forcing the mob to retire over the hill in utter rout.

The affair has caused the most intense excitement here. It is feared the foreigners will revenge the shooting down of their countrymen and that this is but the beginning of riots in all parts of the region. It would not be a surprise to the people here should the strikers resort to the use of dynamite to blow up the works.

CONNELLSVILLE, Pa., May 5.—At no time since the strike was inaugurated has violence been so imminent as at present. The wholesale evictions contemplated next week and the attempt by the leading companies to resume Monday are sure to result in violence. The leading companies say they will start unless the Rainey works are closed down as one. Rainey is securing all the large contracts at handsome figures, and the other companies will not stand idly by and see themselves ruled out of the market. Two of the leading companies announce that they will start up all their works if in doing so they have to depend on the state troops and ask for protection from the state troops.

Fired on His Persecutors.

CORRY, Pa., May 5.—Constable Lindsay, who was shot Thursday night by James Trusty and yesterday from his wounds, offers a reward for the murderer yesterday afternoon. He stood behind a tree, fired at the crowd and with a revolver defied a dozen persons. The officers told him to throw up his hands, but he refused and fired several shots without effect. He was finally driven to his own weapon to end his career and died. The mortally wounded.

"ADAMANT" WALL PLASTER!

The New, Cheap Substitute for Common Plaster.

It is very hard and very adhesive; it does away with the warping and shrinkage of doors and windows, and the cracking is not apparent with age; it is especially fitted for white enamel work in wood, it costs originally but little more than common plaster, and in the end far cheaper; it does not crack or scale off; it does not require several coats to make a finish; it is ready to dry out. It does not crack or fall off; it is the cure of landlords; it is prized highly by our good customers; it is the only material with which regular agents do not easily meet competition.

THE BONNY BOON.

I paused beside the bonny Boon
At midnight and alone,
And heard it tell the listening moon,
In saddest undertone,
The loss and sorrow by it known.

"What though its spring may birds grow sweet,
In autumn sheds my leaf?
What though the winter unchanged repeat
Their magic at my sight?
No more to me the hard returns
When sang my bank and brook;
No more the lips of Robert Burns
Are to my murmur pressed."

"Oh, bonny Boon!" said I, "take heart
And learn the truth of me!
Immortal is my heavenly part
The body myself must be.
Though never to your banks and brooks
His wandering step returns,
The sweetest singer in your nooks
Is still your Robert Burns."

Yet, as before, beside the Boon,
At midnight and alone,
I heard it tell the listening moon,
In saddest undertone,
The loss and sorrow by it known.

A MADMAN'S MYSTERY

I have seen a newborn baby in its crib, with its eyes wide open, peering into the life just opened to it. I have heard persons wonder what the little brain is thinking about, what it sees and how its new surroundings affect it. I know what life seems to a newborn child, for I was but as a newborn child when I awoke to life, and opening my mouth cried out involuntarily to attract the attention of the woman at the window.

She arose from her chair and came hurriedly to me.

"Ah," said she in a sweet, low voice. "At last you live. Rest now. Try to sleep. You will get well."

I did not understand her words at the time, but they lulled me with a satisfied feeling, a desire to close my eyes and sleep. I lay half unconscious for some time, reaching myself object lessons, and soon I could name the various articles I saw about me. But, try as I would, I could not remember my name or anything about myself.

I became strong enough to get up from my bed, and to sit at the window, and to look out upon the snow covered ground, and to watch the gray and the blue in the ocean, and to walk about the room.

One morning I determined to see whether the nurse knew anything about me, so I called her to my bedside.

"Do you know my name?" I asked her.

She looked at me in surprise and wonder.

"No," she said.

"Well, do you know anything about me?"

She looked even more surprised.

"Nothing," she said, "nothing, except that two months ago some of our people found you on the beach apparently dead. We have nursed you back to life. Don't you remember anything about yourself at all?"

I had to admit that I did not.

"Well, will you tell me where I am?" I asked her.

"You are in the town of Astine, on the coast of Nova Scotia," she replied.

"Astine,"—the word seemed familiar to me—"Nova Scotia" also familiar, but I could not tell when or where I had heard the words before.

About a week after this occurred my nurse came to me and told me that the village doctor had said that I could go out for a walk. She offered to go with me. I gladly accepted her companionship, and together we walked out into the cold, fresh, life giving air and down toward the ocean.

We came upon an old ruined building.

"What is that?" I asked her.

"The ruins of the house where the Ayranks lived."

"The Ayranks—have you ever mentioned that name to me before?" I asked her suddenly.

"No," she answered. "Why do you ask?"

"Oh, I do not know, except that the name sounded familiar to me, as if I had heard it many, many times. Why, even when I saw you I thought—how familiar it seemed—that you had spoken my name. Who were they?"

"They lived here for many years in this old house. The son and mother were strangers. The father, I believe, was killed at sea. He lost his mind, and would go and sit on the rocks wandering about in the night and watching his son, who, he said, would return to him some day. Why, I do not know. There he is now!"

But I did not see that the woman had. I saw an old man, with white hair, and with eyes staring toward the sea.

[illegible]

"I [illegible] heard the words, as the [illegible] sweeping along before the wind over the water up the hill to the house. The woman I with me [illegible] and they were dashed upward, up over the rocks [illegible] by the spray flying higher than the roof, [illegible] and above it, sparkling in the moonlight.

"I opened the window, and as I did so the [illegible] which had now come up over the rocks came pouring into the room. It put the cold forever out [illegible], and left [illegible] upon the wonderful beauty of the night. The wind grew fierce, the [illegible] from the lips up there, the banner of the white mist. The moon for a moment shone down upon it, transforming it into so much fairy silver. Then the foam sank again down deep into the mist.

Suddenly there came a boom, followed by a flare across the heavens.

"I know what that meant.

"A vessel ashore," I cried, "in that surf, on those rocks! God have mercy on those on board!"

You Should See Them!

THERE is some author, man or woman, whose books you read, whose manner of thought and expression suit you, whom you would like very much to meet personally. You would like to know

How He or She Looks,

And what the life record has been of one who has pleased you so well. All people cannot meet their favorite authors, their heroes of the political field or those whose lives have interested them in any way, but all feel a keen satisfaction of gazing upon the very features of those who have so interested them and of reading just what they did and what they had accomplished in life. You know of numerous authors and you wonder how old they are, how they look and what the prospects are as to whether or not they will produce more work to please you. You believe in or are opposed to the various men in politics, and of them you wonder the same thing.

YOU WOULD LIKE TO SEE THEM.

You would like to learn all about them. The remarkable work,

"America's Greatest Men and Women."

AMERICA'S GREATEST MEN AND WOMEN.

Will gratify your desires as nearly as may be. It consists of 16 parts, one of which is issued weekly, and each part contains 16 pages, while upon each page is a magnificent portrait, reproduced from a recent photograph, 10x14 inches in dimensions, of some notable person. Beneath the photograph, printed in clear type, is

The Story, Well Told,

Of that person's life up to the present time, just what he or she has done and how the position now occupied was attained. Bound together, these 16 parts will make a volume of 256 pages, containing the splendid portraits and the history of 256 prominent Americans now living, those whom you read about daily in the newspapers, those who are doing things. The book can be procured only through the Argus and Mercury. It is necessary to cut out one coupon and send it to the office, accompanied with 10 cents, to receive in return one of the parts, something that would not cost less than $1 or $2 at the price set long ago prevailing for a work of such magnitude and quality. The terms upon which the Argus and Mercury offer

"America's Greatest Men and Women"

are as follows:

You Can Get This Work Only Through the Daily Argus and Mercury.

HERE ARE the TERMS.

IN EVERY ISSUE OF THE ARGUS AND MERCURY will appear a numbered coupon. Cut this coupon out and bring or forward it, together with TEN CENTS, to the Coupon Department of the Argus and Mercury and there will be delivered or mailed to you one number of the series as above. The remaining parts can be obtained as issued, one each week, by the readers of the Argus and Mercury under the same conditions.

MATTHEWS & CO.

"There came a loud knocking at my door.

"'Who is there?' I asked.

"'It is I,' came the voice of my father. 'Open, I beg of you.'

"I went to the door, raised the latch and admitted him. My mother was with him. They were fully dressed.

"'Boom!' came through the white mist from the vessel pounding upon the beach.

"Yes, now I could hear the vessel as she beat her brains out.

"Then the heavens were illumined by a second rocket.

"'Did you hear? Did you see?' asked my father.

"'Yes,' said I, 'it is a vessel ashore.'

"'We must go to that vessel,' he said resolutely. 'They will need our help. You will go?'

"'Yes,' I said.

"'And I, too,' cried my mother.

"My father tried to dissuade her.

"'This is no woman's work,' he said.

"But she would not be frightened.

"'I will die with you,' she said resolutely.

"Out into the storm we rushed, down to the beach, where the frightened villagers stood looking vainly out toward the doomed vessel.

"They ran to and us as we approached. They would not go out in the boat, they said—it was death.

"'At least,' said my father, 'you will help me get the boat into the surf?'

"But they would not even help get the boat into the surf.

"'If it is death you are going to, Ayrault. We will not help to murder you,' they cried.

"'Then stand aside,' and together we three pushed the boat into the surf, through the rocks to the open sea, then jumped into her and put off over the fiercely rolling waves. My mother and myself took the oars. My father stood at the bow looking out ahead.

"'Come back,' came a faint echo from the shore.

"A great wild wave came crashing down upon us.

"Nearer and nearer!

"The boat cried out, almost, it seemed, like a human being in terror.

"The wave struck the boat.

"The cold water rushed over my head.

"I went down—down.

"I struggled to the surface.

"For a second I caught sight of my father and mother as they struggled in the embrace of death.

"I could see their eyes turned at the last toward me.

"'Come,' their eyes cried to me. 'Come.'

"I tried to cry out to them. I tried to cry to them to wait for me; that we would die together in each other's arms.

I struggled to get nearer to them."

* * * * * *

Then something seemed to snap in my head, and once more I stood on the beach.

"You are faint," she said.

"My father, I muttered, "where is he?"

"Your father?"

"Yes, yes, the old man, where is he?"

"See, he is stumbling along there."

Like one in a dream, he came slowly toward us.

Terror and pleasure stupefied me.

His eyes rested on the snow in front of him. Then suddenly he raised them to mine.

He threw up his arms, he started forward, he cried out, a cry of peace, happiness, a cry from a soul flowing over with exultation.

My father's eyes looked deep into mine. My father's arms were about my neck.

"At last," he cried, "at last, my son, back to me, and now rest."

And with a low moan the old man—Ayrault, my father—fell back upon the snow and was dead.

* * * * * *

And now often my father and my mother come to me when the moon shines in upon my couch, and we sit together on the moonlight, and he tells me the old story, how during his lifetime my mother and I had come to him to murder to him, how I had promised to come back to him so that he might rest.

I ask him every night if am to live on forever, but he answers not.

So we hold each other's hands, and the spirits in the moonlight sing to us, and we are happy.

I, even I, am happy, though they do keep me locked up here in a cell night and day.—New York Sun.

Fifty Feet of Rainfall Annually.

There is always more or less guessing work concerning the amount of rain that falls during any given period. Throughout the United States the amount that falls on any one day rarely exceeds one inch. There are certain portions of the globe, however, that are frequently, and others only occasionally, deluged with water. On the southern slopes of the Himalaya mountains, at an altitude of 4,500 feet, 610 inches of rainfall have been registered in a single year, of which amount 147 inches (12 feet 3 inches) fell in the month of June. At a meteorological station in latitude 14 degrees, near the western boundary of Hindustan, the average rainfall for the 15 years ending with 1893 was 354 inches. In the northwestern part of England, at an altitude of 1,300 feet, the average annual rainfall is 140 inches, 111 inches in excess of the mean for St. Louis, which is but 37 inches and a fraction.

The wonderful record given above is still more phenomenal when we consider the fact that all the moisture the atmosphere is capable of holding at any one time would cover the entire surface of the globe to a depth of less than four inches should it all be instantly precipitated.—St. Louis Republic.

Could Wait Too.

"Is anybody waiting on you, madam?" inquired the floorwalker.

"Yes, sir," retorted the middle aged matron fiercely. "I reckon they're waitin to see if I won't go away without stayin for the 17 cents in change that's a-comin to me!"—Chicago Tribune.

CHILLINESS, when other people feel warm enough, is a sign of lukewarmness, or of malarial poisoning; and is a forerunner of coated tongue, loss of appetite, weakness or dizziness, and a dull, drowsy, debilitated feeling. If your liver that's at fault. You want to stimulate it and invigorate it with Dr. Pierce's Pleasant Pellets. With every trouble of the kind, these tiny little sugar pills act like a miracle. You can break up sudden attacks of Colds, Fevers, and Inflammations, with them. They'll give you a permanent cure for Indigestion, Constipation, Sour Stomach, Sick Headache, and Dizziness. They're the smallest, the pleasantest to take, and the most thoroughly natural remedy.

You ought to be warned against the maltreatment of Catarrh in the Head with powders, ointments, inhalers. They don't cure it. They simply reinforce it—drive it to the throat and lungs. For a thorough and radical cure of Catarrh, take Dr. Sage's Catarrh Remedy.

VILLAGES WITH NEW FUTURES.

Orange County Villages Going in for Manufacturing—Slate Hill's New Enterprise.

The indications are that the villages on the line of the Susquehanna and Western in Orange county will all become manufacturing towns. Johnson led the way, several years ago, when the New York Condensed Milk Company located a plant there. Unionville has a silk factory almost ready to start, and another is talked of. Westtown almost sees its way clear to securing a silk factory, and Slate Hill is not to be left behind, for a movement is on foot there to organize a stock company for the manufacture of steel letters, figures, etc., etc. The parties moving in the matter are D. B. Stewart and Oscar Durland, of the Brooks steel works, Newark, N. J., and they are now in Slate Hill trying to interest the citizens of Wawayanda in the enterprise.

HOFFMAN LODGE'S ANNUAL.

The Most Complete Work of the Kind Ever Issued by the Lodge.

Hoffman Lodge, No. 412, F. and A. M., has just issued its annual edition of by-laws and lodge statistics. The work is more complete than any previous issue, and contains information not found in last year's book.

The number of members of the lodge, on March 1st, 1894, was 286. Since the lodge was organized 581 members have been initiated or have affiliated with the lodge. Sixty members are known to have died and a portion of the book is devoted to them, "In Memoriam."

A complete list of officers of Hoffman Lodge, No. 300, which was organized in 1817, and its successor the present lodge, No. 412, is published as is also a short historical sketch of both lodges.

Novel Method of Locomotion.

Mr. Stanley W. Finch, formerly of Ellenville, has created something of a sensation at the National Capital by a unique device for locomotion—his own invention, as we infer, though of that we are not informed. The Washington *Star* says: "Mr. Finch, of this city, has attracted considerable attention and excited much curiosity by gliding along the streets on a pair of machines which seem to be a combination of roller skates and bicycles. Each skate has two wheels, six inches in diameter, one wheel in front and one behind the foot. The wheels are provided with pneumatic tires and mounted on ball bearings. An ingenious brake is provided. Mr. Finch claims to be able to travel as fast as a man on a bicycle, and with less effort.

S. Van Steenbergh Gets His Bonds.

The New Paltz *Independent* says that the receiver's sale of the bonds of the New Paltz turnpike, New Paltz water works, and New Paltz and Highland electric railroad, advertised for last week, did not take place, Mr. B. Van Steenbergh having paid the $30,000 due the New Paltz bank, and secured the bonds, which were held as collateral. Mr. Van Steenbergh is confident that the electric road will soon be built.

A Bear Treats a Marauder.

Jacob Neeser, of Little Falls, N. J., heard some one prowling about and trying to enter his house, Thursday night. He turned his dog loose, and it picked up a scent and followed it for some distance, and then came to a point. Mr. Neeser and his son came up, and in the bushes in front of which the dog was barking a tramp was found in hiding. He was given a clubbing and allowed to go.

Judgment Against the Erie Affirmed.

The Court of Appeals has affirmed the decision in the case of Thomas O'Malley against the Erie Railroad. Two years ago O'Malley, who is a resident of Newburgh, sustained an injury at Central Valley while employed as an Erie brakeman. That injury rendered his right arm powerless for life. John M. Gardner, as counsel for O'Malley, brought suit against the Erie. The judgment, including interest and costs, amounts to $7,000.

A General Term Complication.

From the Poughkeepsie Press-Press.

The illness of Judge Pratt will probably prevent his sitting in the general term of the Supreme Court, in this city, on the second Monday in May, when the appeal in the McKane case will come up. The other general term judges are Brown and Dykman. Of the other three judges in the district, all are disqualified from sitting in Judge Pratt's place as they have each had more or less to do with the McKane matter.

THERE'S NOTHING LIKE IT.

Pert, Pretty Della Fox Was "All Run Down"—Paine's Celery Compound Made Her Well.

There was never a remedy so highly recommended as Paine's celery compound.

There was never a remedy in such universal demand.

Because—

It makes people well!

Every one among the thousands who have seen petite Della Fox recognizes in her one of the established favorites on the comic opera stage of America.

She is one of the best singers now on the boards. She has a sense of pathos as well as a keen appreciation of humor, and as for deft and nimble dancing there is no star that can excel her.

Pert, chipper, vivacious, the very soul of motion, yet with every nerve and muscle under perfect control. Best of all she is unique.

Everything she does has the Della Fox "tang."

The life study of this celebrated artist and coming star is full of interest. It shows, too, how much common sense and pure grit can accomplish when combined with real ability.

She has worked her way up in her profession step by step with indomitable determination and a perseverance that nothing could discourage. With Conreid, with Hopper, and other managers she has won as many successes in so many cities that no artiste in comic opera is better known throughout the country.

"But I have had to work for it," she said to a reporter in New York the other day.

"You needn't think that an actress' life is spent upon a bed of roses. I love the stage dearly, and am far from wishing to find fault, but indeed the life is more trying than people suppose.

"You see we go through life with a rush. I have no time for anything. Singing every night and rehearsing every day, with whatever time there is left over spent in railroad cars—this is my yearly routine. Of course the result of this sort of thing is a severe strain upon the nervous system. The effort to identify one's self with the character upon the stage is very trying.

"I have frequently found myself, after a particularly successful engagement, so nervous that eating and sleeping seemed luxuries with which I had parted company forever, and I wondered if fame or fortune achieved at such a price were not too dearly purchased after all. Last summer I was particularly run down. The least thing affrighted me, and I shrank from study with loathing.

"I was then in Washington, and the wife of a U. S. Senator recommended to me a cure which she said had enabled her husband to bear up during the strain of the fierce debates in congress while the force bill was pending. I took it at her solicitation and was rejoiced to find an almost immediate improvement. My spirit picked up, and at the end of two weeks the same old exuberant health with which nature blessed me had returned.

"I ate and slept as I had not done since I was a child, and I have never known since then an hour's inconvenience from nervous prostration.

"The medicine to which I owe so much is Paine's celery compound and I have recommended it to all of my stage acquaintances who have overtaxed their brains by too close attention to study, and all have experienced the same happy results as myself."

Paine's celery compound has made thousands of people well. It has saved thousands of women from nervous prostration. It has made the weak strong. It has cured where everything else has failed. Innumerable testimonials as to its wonderful value as a spring medicine have been voluntarily sent to Burlington, Vt., where it is prepared.

Paine's celery compound is the most remarkable remedy for the blood and nerves of the 19th century. It has been recognized and is to-day employed by the foremost physicians for curing kidney and liver troubles and all diseases due to nervous disorder, faulty nutrition and impoverished blood, producing results that seem little short of miraculous.

Paine's celery compound in the spring builds up the system, purifies the blood, regulates the nerves. The weak and worn-out soon find their frames invigorated, their spirits raised, and their strength renewed.

It makes people well!

As a spring medicine it is superior to all the ordinary remedies as strength is better than weakness.

THE PRESIDENT COMING TO MIDDLETOWN.

The Sick May Receive Medical Services Free of Charge.

The President and members of the European and American Staff of German, English, Irish, Scandinavian and American Doctors of New York city will be at the Russell House, Middletown, on Tuesday, May 8th. The sick and afflicted may consult them without charge during their stay. If you are incurable they will tell you; therefore invalids must not take offence if they are rejected, as no case will be accepted unless there is a moral certainty of a cure being effected. These Doctors are graduates of the best universities of Europe and America; they are of the highest standing in the medical profession and have had unlimited experience in the treatment of all Chronic Diseases and Deformities. As the latest methods, instruments and appliances of the various schools of both the Old and the New World are familiar to and at the command of this staff of doctors, it is reasonable to believe that in ninety cases out of every hundred a cure can be effected, even when the patients have been given up as incurable by doctors who have had less experience. Do not be discouraged because your doctor cannot give you relief, or even if he tells you that you cannot get well, for it matters not what your disease may be, you can consult the doctors free, and, if curable, they will treat you; if incurable, they will give you such advice as will tend to prolong life and afford you the greatest relief.

An Empty State Treasury.

AUSTIN, Tex., May 5.—The treasury of Texas is today without a dollar, a condition of affairs that has not existed for twenty years. Before the end of the year there will be a deficiency of several hundred thousand dollars, and it is doubtful if the state will be able to meet the interest on its bonds, amounting to $4,000,000.

To be Reinstated.

WASHINGTON, May 5.—Director of the Mint Preston has examined into the facts relating to the dismissal of Michael Bradley, a Democrat, from the Philadelphia mint, and has disproved of Superintendent Townsend's action. He will direct the reinstatement of Bradley.

Killed by a Falling Building.

PARK RIDGE, Ill., May 5.—A heavy wind storm struck an unfinished building being erected in this town and demolished it. Albert Koppler was killed, and Edward Ivers, Augustus Miller and Henry Peterson seriously injured.

Perished in a Burning Hotel.

ROCHESTER, N. Y., May 5.—Early in the morning the Glen House, a summer hotel located at the lower Genesee Falls, burned to the ground. Mrs. McIntyre, an aged lady, mother of the proprietor's wife, was burned to death.

Will Victoria Visit Russia?

PARIS, May 5.—The Matin publishes an improbable statement to the effect that Queen Victoria will go to St. Petersburg to attend the wedding of the czarewitch and the Princess Alix of Hesse.

New Immigrant Inspectors.

WASHINGTON, May 5.—R. K. Campbell of Virginia and Thomas F. Delahanty of Massachusetts have been appointed immigrant inspectors.

River and Harbor Bill Passed.

WASHINGTON, May 5.—The river and harbor appropriation bill passed the house late yesterday. The appropriation for the harbor at Oswego, N. Y., was increased from $27,000 to $47,000. At 6:07 the house took a recess until 8 p. m. when private pension bills were considered. The open session of the senate lasted only until 2 o'clock. The time was consumed entirely by Mr. Quay who gave another chapter of his serial speech on the tariff. Mr. Gallinger remained by his side constantly, relieving the Pennsylvanian at frequent intervals by reading such extracts as Mr. Quay desired to insert in his remarks. The balance of the day was spent behind closed doors, considering executive business.

Vetoed by Governor Flower.

ALBANY, May 5.—Governor Flower vetoed the bill giving the mayor of New York the power to appoint and remove the heads of the various departments of that city. The governor says: "It makes the mayor of New York an autocrat—the heads of municipal departments merely his puppets. It destroys the present wise system of checks and balances in municipal administration. It would bring every head of department into an active strife for the spoils of office."

The Stranded Steamer Floated.

DETROIT, Mich., May 5.—The Wilson-Hall line steamer Pere an Monarch, which stranded near here on Wednesday night while on her way to New York from London, was floated at 7 o'clock last night. It was a long, hard pull to release her from her bed in the treacherous sands, but it was finally successful and the big freight steamer floated clear and her enforced stop of forty-eight hours on the Great South Beach was at an end. She was at once towed to this city.

SATURDAY, MAY 5, 1894.

The Vigilant, which was recently purchased by the Gould brothers, is being overhauled and improved in several important respects and, as soon as possible, will be sent across the ocean to win new laurels in the summer regattas in British waters and in the Mediterranean.

Coxey is a fellow of infinite jest, and yet he does not seem to know that he does funny things. Yesterday he telegraphed to Massilon, O., to have his two-year-old son sent to him at Washington by express. The express agent, thinking, perhaps, that there were enough Coxeyites in Washington, refused to accept the child.

What is well described as the irony of fate was illustrated at Selma, Ala., the other day, when the town site of Cahaba, once the capital of Alabama, and the centre of an opulent slave-holding aristocracy, was sold for taxes, and bought in by Henry Freeman, an ex-slave, for $550 On the property are a dozen or more houses and two or three brick stores, which will be torn down.

Coxey's army was offered, yesterday, the use of Columbia Park, three miles from Washington, as a camping place, free of charge, and $500 cash, if it would clear up the underbrush and open streets through the tract. Coxey wanted to accept, but Browne said it would not do to camp so far from Washington and so the offer was declined. The one thing that the Coxeyites do not want is work, and this flat refusal of a job only calls attention to what every one knew before.

Sentences of twenty and ten years, the full penalties, were pronounced, yesterday, on the Italian Anarchists, who plotted to blow up the London Stock Exchange with an infernal machine. English courts have thus given notice to the Anarchists of Europe that they may expect no mercy if they come to England with their plots and bombs.

Col. Breckinridge, who begins his campaign for a re-election and a vindication to-day, returned to Lexington, yesterday, and was welcomed by 500 citizens, most of whom shook him by the hand, and cheered him most enthusiastically. There is much excitement in Lexington and feeling runs high between the Breckinridge and anti-Breckinridge factions. Women of Lexington and Ashland have issued an appeal to the Democrats of the district not to renominate Breckinridge on the ground that by so doing they "will best subserve the peace and progress of human society, which from every quarter calls for this right and holy action."

Hon. Thomas McEwan, the Republican leader in the New Jersey Assembly, has, for some time, been exceedingly annoyed at the course of his party associates and has threatened that, if they did not mend their ways and make an effort to fulfill the promises under which the Republicans carried the State, he would wash his hands of all responsibility for the acts of the Legislature and save himself from self-stultification. His bill limiting the rate of fare on New York ferries to two cents was defeated, Thursday, by the efforts of lobbyists, who thronged the capitol and Mr. McEwan, in righteous anger, resigned the chairmanship of the Ways and Means Committee and later, in a publican caucus, explained that he did so because he "hoped to show to the people of this State the sincerity of his advocacy of direct legislation, let defective government, equal taxation, fair gas and ferry charges, rapid elevation, water that would cost but one half what it now costs, ballot reform at elections and primaries, the overthrow of trusts, monopolies and bossism, the enlarged rights of wage earners and similar reforms." This is good Democratic doctrine and the failure of Mr. McEwan to lead his party associates in the way in which he thinks they should go is not to be wondered at He is a Republican in name only, and his proper place is in the ranks of Democracy, the real party of the people.

"THE KICKER" AT THE GAME

Written for the Argus by a Base Ball Crank.

Say! Where ye going Johnny?
Up to see the Asylums play?
Who are dey going to go against?
What! Dat Walden nine, so jay

Say! Dey'll ant 'em up bodily
Dey can't bey! Wanna'll ye bet
Dey've played four games already,
An de Waldens aint won one yet

Dooley! Why he's de best first baseman
Dat ever wore a mit,
An when it comes to battin',
Say Holy smoke can't he hit

An den dere's Paddy McGreevey,
Say aint he a beaut
"Can't play on a team wid a lantern,"
I'll give you a punch in de snoot

"Georgel's a crack!" What ye givin' us
He can't play second base
Why, dat man wouldn't have trouble
To stop a hit wid his face

An' den on Murray and Madison,
On dem we can bet our livest
Dem fellers have got indigestion
From eating hard line drives

Degnan can't catch a cold in a draught hey
Say You've got a wheel in yer head,
And Lawlor lives on my puddin'
And when Fish hooks on dey are dead

Gee Dis is a walk, phew aint it
Mr Man How much is de tax?
A quarter Say! You're got a check.
But ye'll can't be broke wid an axe

Twenty-five cents! Say yere kiddin'
What! To see dem dubs play ball
Well, obuse us a ticket,
But you've got an awful gall

Gee! Dey've got quite a crowd,
Didn't think so many drunks in town
Dis is nice place to come to a ball game,
No decent place to sit down

What a de score Two an one,
An de last we time from Walden ahead
I knew the Asylums were N G
If day Wm dis bird would drop dead

Now den Dooley, I'm her one,
Give it a good one, right on de nose
One strike On well get's mind,
Just get on it it's aint pose

Two strikes dat umpire's a mug,
It I was down dere an near him,
I'd soon put a stop to dat

What's dat Two strikes! Dooley yer N G
You talk I our be doing a ball,
You ought to be put on a milk train
Yer a counter feit well, what a gall

[illegible]

Dooley! Why he's de best first baseman
Dat ever wore a mit,
An when it comes to battin',
Say Holy smoke can't he hit

[illegible]

Say, aint he a fine dandy?
Yes De Asylums are marks at base ball
Gee! What a liner at Dooley!
He caught it Dat man's a regular wall.
And so on he goes for nine innings.
With de him base ball is quite tame
What the elephant is to a circus.

He Has Done Good.

Few men have attracted more attention of recent years than Rev. Dr. Parkhurst, of New York. He has done much toward cleansing that great city from vice. An earnest and able man, he has proved a practical reformer and has accomplished a vast amount of good. A magnificent portrait of him, accompanied by a brief story of his life, forms necessarily one of the features in "America's Greatest Men and Women." The work in itself is as remarkable as the careers of those whom it describes. It is something which should be in every household, something of interest and value to the grown, and an educator for the children.

DID YOU EVER TRY TO SAVE $500

Or even half of it? It was a tough job, wasn't it? You often felt like using the money, didn't you? That was because you knew you had it in your pocket or the bank. Could you save up $250 to buy a piano? Doubtful, but you wouldn't miss $10 a month if you could pay it that way and get a first-class Piano from the start.

That is just what we are in business for Although we sell Pianos and Organs for cash, and at prices that cannot be beaten in the world, we also sell the same instruments on credit terms, asking only a small per cent. for the accommodation. It's the best and easiest way that you can secure a Piano or Organ. The latter are only $5 per month.

THE REMOVAL OF THE MONUMENT.

The Box in the Corner Stone Opened—Its Contents and the Additional Articles Placed in It.

The box containing the articles deposited in the soldiers' monument was opened in Police Court, this morning, the object being to add some other articles. The box had rusted badly, and a new one was procured by the committee of old soldiers, who are looking after the removal of the monument.

The contents of the box were as follows:

Copies of the MIDDLETOWN DAILY ARGUS, MIDDLETOWN SEMI-WEEKLY MERCURY, *Orange County Press*, *Daily Evening Press*; the seventh annual report of the State Homeopathic Hospital: a list of subscribers to the monument fund; the roster of the Army and Navy Club; shoulder straps worn by Major McCormal in the 15th New York cavalry; a penny of the date of 1845, with the letters W. B. M. stamped thereon, from W. B. Mills, of Deckertown, N. J.; a penny of 1878; a cigar from A. S. Frost, of Company K., 124th Regiment, with a request to the finder to smoke it, but the finder hadn't the courage to do so.

There were also several cards, two army buttons and a letter from Police Justice Bradner giving a list of the police officers and the following patriotic injunction:

"Stand by the old flag boys, 500 years from now."

A "hard tack" had been placed in the box, but all that remained of it was a little flour.

The following articles were added to the collection and placed in the new box, this afternoon:

Roster of Gen. Lyon Post, No. 266, Roster of Capt. Jackson Post, No. 301, list of city officials of 1894, roster of the 24th Separate Co., copy of Middletown Daily *Times*, copy of the *Conglomerate* and record of removal of monument to Thrall Park.

World's Columbian Exposition

Was of great value to the world by illustrating the improvements in the mechanical arts and eminent physicians will tell you that the progress in medicinal agents has been of equal importance, and as a strengthening laxative that Syrup of Figs is far in advance of all others.

THE NEWBURGH MURDER.

One of the Suspects Makes a Confession.

John Moran, who was arrested, Wednesday, on suspicion of being connected with the shooting of Frank Henderson, of Newburgh, has made a confession, in which he says he was with the crowd who committed the burglaries that night, but denies that he had any part in the killing of Henderson. He gives the names of the gang as Homer Sarvis, John Gregory, John O'Neill, and two others whose names the Newburgh police have not made public, for the reason that they are not yet under arrest.

MATTHEW MATTHEWS SENTENCED

Ten Days for Abusing a Citizen—170 Days for Impertinence to the Recorder.

Matthew Matthews, aged 20, a resident of Canal street, was arrested upon complaint of Hiram Brown, for using threatening and abusive language.

He pleaded not guilty, was tried and promptly convicted and as it was a first offence, was fined $10 or ten days in Goshen.

His demeanor toward the Recorder throughout the trial and after the sentence, was such as to cause the latter to change the sentence to six months' imprisonment in the Albany penitentiary, and Matthews was taken there on train 38, this morning.

Proud of His Bracelets.

Young Matthews, who was sentenced to Albany penitentiary by Recorder Bradner, this morning, was evidently proud of the notoriety he obtained. He sat in the smoker of the Delaware Valley Express and held his handcuffs out of the window to display his handcuffs, and when asked by a reporter if he was proud of his bracelets he replied that he was.

No one who saw the fellow could doubt that the Recorder's sentence was a just one.

A RAILROAD TO ORANGE LAKE.

The Newburgh and Orange Lake Railroad Company Incorporated.

The Newburgh and Orange Lake Railroad Company was incorporated in Albany, yesterday, for the purpose of constructing an electric railroad four and one-half miles long, from Broadway and Haines' Cross Roads in Newburgh to Orange Lake, for the purpose of carrying passengers, freight, baggage and mail. The capital is $100,000, and the directors are Joseph M. Dickey, Wilbur H. Weston, Benjamin B. Odell, Jr., Henry C. Norton, Samuel Cash, William D. Dickey and C. M. Huyet, of Newburgh and Benjamin Norton and Henry Newkirk, of Brooklyn.

THE TROLLEY CARS.

To Run Regularly After Monday Evening—A Trial To-day.

The electric cars will run regularly after 7 o'clock on Monday evening. Members of the press and city officials will be the guests of the company and make a trip over the road, after which they will be given a banquet at the Russell House. The public will have its innings later.

This we are authorized to say is official and this programme, barring accidents, of course, will be carried out.

A trial trip was made, this afternoon, with one car, to test the wires and rails

Change in the Passenger Runs on the O. and W.

It is definitely announced that the runs of trainmen on the Ontario and Western day and night express trains will, under the next time table, be extended to Walton. The run from there will be to Oswego. This means that two gangs will do the work now done by three. The men thus laid off by this change will probably be transferred to summer trains. The change will affect a number of Middletown men and will probably result in the removal of several families to Walton.

Is There a Shad Trust?

Such large catches are being made in the Hudson that prices rule very low in the local markets, the supply being far in excess of the demand. In this city, however, prices keep well up, being almost the same as when the season opened. Perhaps the explanation is high freight rates from Cornwall, and, perhaps we are victims of a shad combine.

A New Railroad Invention.

A patent valve gear, the invention of an Englishman named Lanpher, is being tested on O. and W. engine No. 34. The engine drew train 8 this morning, and as far as we can learn the new device, which has been patented, gives satisfaction to railroad men. One of its merits is to economize space under the engine.

A Big Pickerel Easily Caught.

Station Agent Wm. Nolan, at Thompson Ridge, while standing on the bank of Mr. Alex Thompson's pond, saw the tail of a fish at the edge of the water, made a grab and pulled out a pickerel that weighed three pounds and seven ounces. This story was told by Conductor Mayble, to-day, and he says he is willing to stake his reputation on its truthfulness.

INCIDENTS AND HAPPENINGS IN GOSHEN.

Middletown Bicyclists in Town—The Railroad Franchise—Rented a Saloon—Hunting's Circus.

From our regular correspondent.

—Many Middletown bicyclists are seen on the streets of this village in the early evening. When the band concerts begin we expect to see a regular wheelmen's meet every night that the band plays.

—The Board of Trustees will meet again, Monday night, and it is said that the matter of granting a franchise to the Middletown and Goshen Traction Company may be considered.

—Joe and Thos. Dailey have rented the saloon under Hulse's jewelry store, and will open it about June 1st.

—Don't forget that Bob Hunting's circus will be here Wednesday, May 9. The seating capacity of the large tent is about 3,000.

—A black Morrocco pocket book containing a sum of money was lost between Seely's grocery and W. A. Clark's. Finder will be rewarded by leaving at Levy's stationary store.

IN ANCIENT GOSHEN.

Members of the Goshen Vocal Society to Visit Warwick—A Pamphlet Descriptive of the Musical Festival Soon to be Published—Some Other Local and Personal Notes—The Elm Bug—The Voice of the Tack Hammer.

From a special correspondent

—A number of members of the Vocal Society will accompany Rev. R. B. Clark to Warwick, next Wednesday evening, for the purpose of rehearsing the oratorio of "Moses in Egypt" with the Warwick chorus.

—Pamphlets descriptive of the musical festival to be given in this village, Middletown and Warwick, during the early part of June, will be ready for distribution next week. They will give a full account of what will be produced in these three places, with information as to the time of trains.

—Miss Virginia Sharpe, a former resident of Goshen, spent last Wednesday with friends in this village. Miss Sharpe has secured a government position and will live in future in Washington, D. C.

—Rev. William E Maison started, yesterday, for Boston, where he will remain over Sunday. The services at St. James's Church will, on that day, be conducted by the Rev. Phineas Duryea.

—The elm bugs in this village are rapidly becoming domesticated. Until the elm trees shall put forth new leaves, they are perfectly contented to make themselves at home in our houses and get up an appetite by wandering about from room to room.

—Through the open windows comes the sound of tack hammers; on the piazzas, in the front yards and other unusual and unseemly places, stands the household furniture. The annual newspaper jokes apropos of house cleaning have been brought out, furbished up and made to do duty once more, and all signs indicate that that season of discomfort to man and beast is at its height. Of course the women like it; at least there is a popular superstition to that effect, and naturally it is easier for the one who stays at home and gets a back ache than it is for the man who is away all day and gets back when everything is settled and in order. G. H.

Sullivan County

—Judge Beebe recently bought of William Nelson, of Forestburgh, three fine cows for his farm near Monticello. He took the pick of Mr. Nelson's herd and paid forty dollars each for the cows.

—Rev. J. M. Robertson, who has been supplying the pulpit of the White Lake Presbyterian Church for two years, preached his farewell sermon, Sunday. During his pastorate the church has grown and prospered.

—B. W. Winner was in Monticello, Monday, in conference with his counsel, Judge Bush, relative to the appeal which District Attorney Hill has taken to the General Term of the Supreme Court from County Judge Smith's action, at the February term of the County Court, in quashing the indictments against him. The matter is to be argued next week at Albany. The old Sheriff declares that after he gets through with the pending question he will make it warm for Jim Schoonmaker, Dan Bonnell, and other parties, who have been hounding and prosecuting him through the criminal courts, because he couldn't pay his debts. He says he has plenty of evidence, "and don't you forget it."—*Watchman*.

General Harrison's Emphatic Denial.

NEW YORK, May 3.—Ex-President Harrison arrived here yesterday afternoon. The ex-president said his visit to the city was purely on private business matters. "Have you any idea of becoming a candidate for the presidency in 1896?" he was asked. "I have not," replied Mr. Harrison in an emphatic manner. He expects to remain in New York for six or seven days.

Not Guilty of Abduction.

WILKESBARRE, Pa., May 5.—Rocco Balistri, the organ grinder who has been on trial for the past three days upon the charge of abducting little Eddie Brotherton of Ashley, this county, was acquitted last night. The jury was out seven hours. The boy disappeared from his home early in February, since which time no positive trace of him has been discovered.

POISON IN THE AIR WE BREATHE.

"Malaria" means bad air. It is air tainted with poison from decaying vegetable or animal matter. It produces periodic fevers; with one sick day and one well day. Malaria also arises from sewers, garbage, newly opened streets, or from laying street mains, damp cellars, and from a hundred unsuspected places. We inhale this poison in breathing and cannot avoid it except by destroying the malarious influences. When malaria enters the system, it causes, perhaps, a greater variety of aches, pains and miscellaneous mischief than any other single source. Among them are severe sickness of the Stomach, Chills and Fever, Bilious Attacks, Typhoid Fever, Jaundice, Constipation, Liver and Kidney Complaints, Rheumatism and Neuralgia. Hitherto quinine has been the chief reliance for the cure of Malaria, but when this drug settles in the system, it causes almost as serious trouble as it is employed to dispel. The most trustworthy preventative and cure for Malaria in all its forms is Dr. David Kennedy's Favorite Remedy. This splendid tonic and alterative roots out the poison without danger to after health. By its invigorating effects upon the digestive organs and the blood, this medicine prepares the system to resist the foul and poisonous air, and renders an attack of Malaria impossible. Dr. Kennedy's Favorite Remedy has already made a noble record in those parts of the country where Malaria is a constant pest in summer and fall, and where no other preparation or drug has yet been found able either to ward it off or eradicate it.

A LARGE SKIN GRAFTING.

Three Men Give Up Healthy Cuticle to Save the Life of Another.

Two heroes in humble life Friday evening bared their bodies to the surgeon's knife at the Samaritan hospital and allowed Dr. Little to take as much skin as he needed to save the life of Henry Millman, 44 years. The names of the two men are Joseph Connell, 28 years, and William Fricke, 28 years. This was the second skin grafting on Millman.

Eight weeks ago Henry Millman was seriously burned by falling on a stove in a shanty at Eighth street and Allegheny avenue. For a time his life was despaired of. He partially recovered, but a surface of about 140 square inches on his body was almost burned to a crisp. As the ulcers did not heal, the doctors decided to graft new skin over this large surface of Millman's body.

The sufferer's younger brother, John Millman, 28 years, volunteered to have as much skin taken from his thigh as was needed to cover the sore on his brother's side and breast. About 60 square inches were required, and a week ago the skin from John Millman's thigh was grafted on his brother's side.

Speaking of the skin grafting, Dr. Lester said that it was the biggest thing of the kind ever done in the hospital, and as the injured man's side was healing there was ground for believing that the second grafting would be a success.

Friday evening 20 square inches of skin were taken from the left thighs of Connell and Fricke, 14 inches being cut from Fricke and 6 from Connell. The skin was transferred from the blade of a carver by which it was removed direct to Millman's body, on which is an exposed place of about 70 square inches. Connell and Fricke seemed quite cheerful while their skin was being removed.

Both said that they were ready to submit to a further examining whenever Dr. Little chose to complete the operation.—Philadelphia Press.

What is CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhœa and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

DR. G. C. OSGOOD,
Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

DR. J. F. KINCHELOE,
Conway, Ark.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."

H. A. ARCHER, M. D.,
111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

GETTING OUT OF IT.

How the Last Man Who Came Had to Pay For the Drinks.

Among the guests at a well known hotel in London are several gentlemen from America who are noted for their flow of animal spirits and their disposition to get as much fun as possible out of their holiday. During the long evenings the billiard room and adjacent bar are well patronized, and there has sprung up an intense rivalry among the festive individuals to see who shall succeed in "sticking" his neighbor for the greatest number of drinks and cigars.

All sorts of tricks and devices are resorted to by the adroit schemers, but it was reserved for a Cincinnati man to invent a little scheme by which event the most experienced of the tricksters were beautifully taken in. A few evenings ago the assembly was unusually large. Billiards and other light amusements had become a bore, and things began to be a trifle dull when the Cincinnati man, gifted with sudden inspiration, sang out:

"Now, gentlemen, I've got a new game."

At once there was a rush, and in less than 30 seconds 15 or 20 thirsty gentlemen were ranged alongside the bar.

"Each one put his finger on the counter," said the joker, at the same time setting the example. Instantly every man gravely complied.

"Now, then, the first man that lifts his finger treats the crowd," calmly continued the wicked, wily Cincinnatian.

Every victim turned pale with horror and stood as if rooted to the spot. It was no laughing matter. There were men in that party who wouldn't crook their elbows for anything less than a shilling drink and who never smoked anything but the finest imported Havanas. The loser was destined to have a nice little bill to settle. For one hour and 20 minutes the hapless victims stood there, their forefingers glued to the bar.

The situation was becoming very interesting when another Cincinnati man rushed in to get a cigar. He had some important correspondence to prepare for the outgoing mail and was in a tremendous hurry.

"What's up?" he inquired as he witnessed the strange spectacle before him.

"Put your finger down," said the joker.

Almost mechanically he obeyed. Then the condition of the little game was explained, and the newcomer was wild. He raved and stormed and pleaded—business, but to no avail. The others wouldn't let him off, and after holding out for half an hour he succumbed with a bad grace and "set 'em up." There wasn't change enough from the sovereign which he handed to the bartender to pay for a box of matches. And the parties who had been pressing their forefingers to the marble slab for nearly an hour laughed feebly and remarked that it was "a tiptop good joke, you know."—London Figaro.

She Paid George Back.

They sat coolly side by side at the theater, enjoying to the top of their bent the miserable fate of Desdemona, and dear George told her that he would never be jealous of her—no, not if she should give away 1,000 pocket handkerchiefs—and then they had squeezed each other's hands under her lace wrap, and they were as happy as happy can be. "Dear George" bought her a box of bonbons and then ate them all up, for no man was ever so much in love as to be shy in the matter of eating.

By and by it came to the end of the third act, and after looking very restless and wretched George said fondly, "You won't mind, dear, will you, if I just step out into the vestibule to stretch my legs a bit, will you?"

If George had had half an eye, he would have seen that she did mind very much. No woman likes to be left alone in a theater, but she only said coolly, "Oh, not in the least if you care to go."

So George crawled over the laps of half a dozen ladies, treading on their toes, scratching their chins with his watch chain and ruffling the bloom off their laces and evening attire.

She waited about five minutes, and then, swiftly bundling her wrap around her and with her pretty face scarlet with indignation and embarrassment, she bravely left the theater and went home.

And it served George right.—New Orleans Picayune.

Foreign News.

The czarowitz turned at the threshold.

"By the way, Bismarck," he said, "I want to thank you for having a hand along that little love affair of mine."

The emperor of Germany gestured deprecatingly.

"Don't mention it, old man," he replied. "This may help cement the entente cordiale, don't you know, and between you and me the monarchs begin to drop out of the entente. Fact! Thanks, I don't smoke anything stronger than hemp."

Saying which, the monarch waved aside a fresh cigar.—Detroit Tribune.

SHOTS HERE AND THERE.

AN "ARGUS" MAN OFF DUTY AIMS AT SEVERAL SUBJECTS.

A Bill Reducing Milk Freight Rates Passed by New Jersey's Legislature—Will Not Help the Farmers—Orange County's Experience in Enriching Milk Dealers—Like a "Preoccupied Shad."

New Jersey's Assembly passed, Thursday, by a unanimous vote, the bill introduced by Mr. Coursen, of Sussex county, reducing the freight on milk from thirty-two to twenty-five cents a can. It is predicted at Trenton that the bill will be killed in the Senate, but whether it is or is not, ought to be a matter of unconcern to all except the railroads and the New York milkmen. If the bill becomes a law it will slightly reduce the revenues of the railroads, and will afford milk dealers a margin for a few cents extra profit on New Jersey milk, but it will not increase the price to the farmer the smallest fraction of a cent per quart, nor make the price to the consumer one jot or tittle less than it now is.

I well remember, a number of years ago, when the scheme was on foot to compel the Erie and other roads to reduce the freight on milk from forty-five cents a can to the present figure. Petitions for the proposed reduction were sent to Orange county farmers to sign, and those who were engineering the movement demonstrated with mathematical certainty that if the railroads were forced to reduce the rate, New York dealers would be able to pay thirteen cents a can more to the farmers, and, reckoning on 4,000 cans a day as the daily shipments by the Erie, a snug addition would be made to the incomes of the farmers. It was a plain case of taking $520 a day out of the Erie treasury and putting it into the pockets of the farmers. Well, the reduction was made, and the farmers never got a penny of the swag; the dealers took it all and, worse still, cut the price for milk lower than it was the year before. It will be the same thing over again in New Jersey if the Coursen bill becomes a law. Its only effect will be to give the dealers who handle Jersey milk seven cents a can extra profit.

Milk shipped from New York points and landed in Jersey City or Weehawken is interstate commerce milk and beyond the reach of New Jersey legislation, so that Mr. Coursen's bill, if enacted into law, can only apply to milk from New Jersey stations. It might make New Jersey milk a little more desirable and make it easier for New Jersey farmers to secure and retain customers, but this is everything that it could possibly do for the farmer. And it is very doubtful if this would count for much, for it will be remembered that when the Ontario and Western began to charge five cents a can extra on milk shipped from stations west of the Shawangunk tunnel, the increased freight did not perceptibly affect the demand for O. and W. milk.

***

The use of an adjective in a new and unusual relation often lifts a sentence entirely above the level of the commonplace. A striking illustration of this was afforded in the account of the Meyer trial in yesterday's New York *Sun*, in which one of the witnesses was described as looking like a "preoccupied shad." Of course, no one has any idea in what respect a "preoccupied shad" differs in appearance from one in a less rapt and abstracted state, but every reader of the *Sun*, I venture to say, got a better idea of the looks of the witness who was likened to a "preoccupied shad" than could have been obtained from half a column of description of the ordinary kind.

REBEKAHS ENTERTAIN

Martha Washington Lodge Gives a Pleasant Entertainment

Martha Washington Lodge, I. O. O. F., gave an entertainment at their lodge rooms, last evening. The attendance was large, the rooms being well filled with Odd Fellows and their friends.

The entertainment was of a musical character and was well rendered. Vocal solos were given by Mr. Chas. H. Brown, Mrs. E. T. Lyon and Mr. G. H Hirst; Miss Lottie Wells gave a violin solo, and an interesting and very amusing burlesque was given by Mr. Brown, Mrs. E. B. Quick and Mrs. Frank O. Grover. There was also a recitation by Miss Indamora M. Benton.

After the entertainment refreshments were served by the ladies to all present.

La Grippe.

During the prevalence of the Grippe in past seasons it was a noticeable fact that those who depended upon Dr King's New Discovery, not only had a speedy recovery, but escaped all of the troublesome after effects of the malady. This remedy seems to have a peculiar power in effecting rapid cures not only in cases of La Grippe, but in all Diseases of Throat, Chest and Lungs, and has cured cases of Asthma and Hay Fever of long standing. Try it and be convinced. It won't disappoint. Free Trial Bottles at McMonagle & Rogers's drug store

What Causes Pimples?

Clogging of the pores or mouths of the sebaceous glands with sebum or oily matter.

The plug of sebum in the centre of the pimple is called a blackhead, grub, or comedone.

Nature will not allow the clogging of the pores to continue long, hence,

Inflammation, pain, swelling and redness, after pus or matter forms, breaks or is opened, the plug comes out and the pore is once more free.

There are thousands of these pores in the face alone, any one of which is liable to become clogged by neglect or disease.

What Cures Pimples?

The only reliable preventive and cure, when not due to a constitutional humor, is

Cuticura Soap.

It contains a mild proportion of CUTICURA, the great Skin Cure, which enables it to dissolve the sebaceous or oily matter as it forms at the mouths of the pores.

It stimulates the sluggish glands and tones to healthy activity, reduces inflammation, soothes and heals irritated and roughened surfaces and restores the skin to its original purity.

This is the secret of its wonderful success.

For bad complexions, red, rough hands and shapeless nails, dry, thin and falling hair, scaly and irritated scalps and simple baby blemishes it is wonderful.

It is preserving, purifying and beautifying to a degree hitherto unknown among remedies for the skin and complexion.

Sale greater than the combined sales of all other skin and complexion soaps.

Sold throughout the world.
